

V1 Festival Catalog Research — Data Quality First

Research date: 13 September 2026

Window: 13 September 2026 → 13 September 2027

Genres: Drum & Bass, House, Techno

Regions: Europe (primary), Southeast Asia (Thailand / Indonesia where data is usable), Japan (boutique + a few dated 2026/27 shells), South Asia (only where data is usable)

Question this document answers: *Can Om realistically maintain this festival in Festival Lineup Tracker without scraping?*

This is **not** a “best electronic festivals” list. Fame is a penalty when it means 15 stages, Instagram-only updates, or city-wide chaos.

Legal note: Use official pages as a **reference for manual curation**. Do not scrape. Do not treat RA / Festalgia / Frontstage / BookMyShow scrapers as production sources. This is not legal advice.

1. Executive summary

What the data landscape actually looks like on 13 Sep 2026

Reality	Implication
Almost no 2027 outdoor festival has published a full stage + start + end grid yet	Do not expect a @@CODE0@@ catalog today
Official timetables typically appear 7–21 days before (Let It Roll even says ~14 days)	V1 Clash demo = pick fests that historically publish official HTML/PDF grids , then transcribe when they drop
Netherlands / Belgium / Czech indoor-outdoor circuit has the clearest official websites, dates, and later timetables	Best region for maintainability
Tisno, Croatia (The Garden) cluster (Hospitality, historically Defected/Dimensions) has bounded sites (3–5 stages)	Excellent clash shape; 2026 editions of Defected/Dimensions are already over
UK mega dance fests (Creamfields) and city-wide ADE are famous and a maintenance trap	Reject or identity-only
South Asia has almost no clash-grade official timetables	Keep 3 India names, mostly @@CODE1@@. Do not pad to 10
Southeast Asia (esp. Thailand + Jakarta/Bali) has better 2026 official sites than India	Keep ~5–7 SEA names. Do not pad with Full Moon parties, club nights, or unannounced 2027 editions
Japan’s best dance fests (rural, Rainbow Disco Club) already ran in 2026; 2027 dates are missing	Keep ~3–4 JP names in-window. Do not invent a Japan top-10

Best countries for *our* data (not for tourism)

1. **Netherlands** — Awakenings, DGTL, Dekmantel, Liquicity, Soenda, Loveland, Verknipt: English sites, confirmed 2027 dates, later HTML programs.
2. **Czechia** — Let It Roll (summer + winter): official site, named stages, **documented timetable policy**.
3. **Belgium** — Rampage Weekend, Extrema Outdoor: official dates, indoor/outdoor bounded.
4. **Italy** — Kappa FuturFestival: excellent historical HTML day-lineups; 2027 dates live.
5. **Germany** — Time Warp Mannheim: one night, 5 floors, historically exact times; 3 Apr 2027 confirmed.

6. **Croatia (Tisno / Pag)** — Hospitality on the Beach 2027, Hideout 2027, Outlook 2027, Verknip Croatia 2027: holiday format, 4–5 stages, official ticket sites.
7. **Poland** — Unsound 2026 is the **only researched fest with a live official HTML schedule today** — but genre fit is experimental, not D&B/house/techno-first.
8. **Thailand** — strongest SEA data this window: **808 Festival** (Oct 2026, 2 stages, lineup live), **EDC Thailand** (Dec 2026, 6 named stages + official artist list), **Tomorrowland Thailand** (Dec 2026, official hours + 100+ names, clash-hostile), **Wonderfruit** (Dec 2026, dates/gates official, timetable later on app).
9. **Indonesia** — **DWP 2026** (Jakarta, phase-one lineup on official ticket site), **Dekmantel at Potato Head Bali** (26 Sep 2026, house/techno, 2 rooms). Day Zero Bali **2027 dates not published**.
10. **India** — Sunburn 2026 (headliners), Echoes of Earth 2026 (artist list on official site), Lollapalooza India 2027 (lineup in press). **Times: not public**. Ticketing often BookMyShow (aggregator).
11. **Japan** — **best taste, awkward calendar**. Labyrinth (Oct 2026) has an excellent official English site + music hours + week-of timetable policy, but lineup is late/secret and historically **one floor** (Clash-weak). Ultra Japan (19–20 Sep 2026) has **3 named stages + an official running-order image** — rare — but it is **this weekend** and EDM-first. Snow Machine Hakuba Mar 2027 has a real D&B/house lineup on the official site; ski-village format is HARD. GMO SONIC Apr 2027 is dates-only. **rural 2026 and Rainbow Disco Club 2026 already happened; 2027 not official**.
12. **Rest of SEA (SG / MY / PH / VN / KH / LA / MM)** — no second multi-day electronic festival with a maintainable 2026/27 official catalog found (ZoukOut dormant, Ultra SG/PH are old editions, We The Fest is indie/multi-genre).
13. **Pakistan / Bangladesh / Nepal** — no multi-day electronic festival with maintainable official catalog data found for this window.
14. **Sri Lanka** — one-nighters (YAGA, Wonderland, Sunfest) — **events, not festivals** for our model.

Honest ratio for V1

Recommended: ~24 Europe + ~5–7 Southeast Asia + ~3–4 Japan + ~3 India

Not 25+10 SA, not 10 SEA, not 10 JP. Japan is **not** empty — it is **under-dated** for 2027.

Status vocabulary used below

As of **today**, almost every 2027 fest is @@CODE2@@ or @@CODE3@@.

@@CODE4@@ is reserved for **official** stage + start/end **now**. Unofficial aggregator grids do **not** qualify.

Clash potential /5 = how likely this fest is to *become* clash-ready from an official timetable Om can type, not whether times exist today.

2. How to read scores

Score	Lineup completeness	Stages	Exact times	Source reliability	Update likelihood	Clash engine
5	Full official artist list	Named stages on official site	Official start and end	Organizer site / official PDF	Stable annual site + emailable org	3–6 stages, bounded site, times will be official
3	Partial / headliners	“Several stages” but unnamed	Door times only	Mix of official + press	Seasonal Instagram	Usable if timetable drops
1	Rumour / aggregator AI	Unknown	None	Social only	Chaotic	Mega / city-wide / 10+ stages

Maintainability: EASY = 1–3 days, ≤4 stages, one official URL. HARD = 6+ days, 6+ stages, multi-venue city, or Instagram-first.

3. Ranked V1 candidates (best ~36)

Sorted for **data quality + genre + maintainability + 2026/27 window**, not fame.

Top South Asian candidates (honest)

Priority	Name	Why	Don't expect
1	Sunburn 2026	Official dates/venue; headliners; Asia's only large electronic fest in-window	Set times, DnB, techno identity
2	Echoes of Earth 2026	Official site, Dec dates, artist culture, boutique	Clash grid; filter archive names
3	Lollapalooza India 2027	Confirmed + published lineup in press	Electronic-first catalog; times
4	Magnetic Fields 2027	Best <i>historical</i> Indian electronic data (named stages)	Anything until 2027 edition exists
5	Sunburn Arena Bengaluru 18 Dec 2026	Same week as festival (DJ Snake) — concert , optional	Calling it a festival
—	Pakistan / Bangladesh / Nepal festivals	No maintainable multi-day official electronic catalog found	Padding the list
—	Sri Lanka YAGA / Wonderland	One night, surprise lineup	V1 festival entity

Do not force 10 SA festivals.

Top Southeast Asian candidates (honest)

Priority	Name	Why	Don't expect
1	808 Festival Bangkok 2026	Official site, 2 stages , Oct dates, techno names on the bill	Full clash grid today; DnB identity
2	EDC Thailand 2026	Best SEA official stages + artist HTML; D&B/house/techno tents exist	Set times until week-of; easy maintain
3	DWP 2026	Official ticket site + phase-one names (Dimension, Lilly Palmer, Eli & Fur)	Complete stage map / times
4	Dekmantel Bali 2026	Genre-pure house/techno, 2 rooms, official Potato Head page	Public per-set times
5	Tomorrowland Thailand 2026	Official hours + huge press lineup	Clash, or treating the JS lineup page as complete
6	Wonderfruit 2026	Official dates/gates; unique Thai boutique	Pure dance identity; HTML timetable (app-first)
7	Gaia Beats 2027	Official Jan dates, claimed D&B/house/techno	Any artists until they render on gaiabeats.com
—	S2O 2027	Recurring Songkran EDM water fest	Anything until 2027 dates (2026 was 11–13 Apr — already over)
—	Day Zero Bali 2027	Official site: "Returns 2027"	Dates, venue, lineup
—	ZoukOut / Ultra SG / Ultra PH	Historically important	2026/27 editions — not found
—	We The Fest	Jakarta brand	Electronic-first catalog

—	Full Moon / Koh Phangan / Circoloco club weeks	Parties	Festival entity in our model
---	--	---------	------------------------------

Do not force 10 SEA festivals. Thailand + Indonesia already beat India on official 2026 pages. Singapore / Malaysia / Philippines / Vietnam / Cambodia did not yield a second maintainable multi-day electronic catalog in this window.

Top Japanese candidates (honest)

Priority	Name	Why	Don't expect
1	The Labyrinth 2026	Official English site, music hours, week-of timetable promise, house/techno pilgrimage	Named lineup today; a Clash graph (often one floor)
2	Snow Machine Hakuba 2027	Official D&B + house names (Wilkinson, Kanine, Kettama, Patrick Topping)	Simple one-site Clash; times
3	Ultra Japan 2026	3 stages + official running-order PNG this weekend	2027 dates; DnB; HTML timetable
4	GMO SONIC 2027	Official Apr dates at Saitama arena	Lineup, techno identity
—	Rainbow Disco Club 2027	Historically the JP house/techno outdoor gold standard	Anything until 2027 dates are on rainbowdiscoclub.com
—	rural 2027	Historically the JP camping techno gold standard	Anything until ruraljp.com dates 2027
—	Fuji Rock / Summer Sonic	Famous	Electronic-first catalog
—	Rampage Tokyo / WOMB 06S	Real DnB culture	Festival entity (club nights; Rampage Vol.2 was 30 May 2026 — over)

Do not force 10 JP festivals. Japan's *scene* is excellent. Japan's *dated 2026/27 festival catalog* is small.

6. Do not include (famous but bad V1 data)

Festival	Why reject / defer
Tomorrowland Belgium	Mega, two weekends + Harmony, insane stage count, commercial IP, clash unmaintainable
Tomorrowland Thailand (Clash)	First Asia edition is <i>smaller</i> than Boom, but still 6–7 stages / 100+ artists . Official hours exist; set times not published . Use as Fit-only , same rule as Creamfields
Fuji Rock / Summer Sonic / Rising Sun / Asagiri Jam	Japanese icons; not D&B/house/techno-first. Asagiri skipping 2026
Glastonbury	Not electronic-first; pyramid vs 100 clashes; BBC/official grid is huge
Sziget / Primavera / Rock Werchter	Multi-genre; electronic is a corner
ADE as one festival	300 venues, 1200 events — not a Performance table Om can own
Creamfields (Clash)	Volume; times late; mixed EDM
Mysteryland 2026 skip year	2027 dates not firm
I Love Techno Ghent	Brand left Ghent years ago
Magnetic Fields Nomads Feb 2026	Already happened
NH7 Weekender 2026	Already happened; indie/hip-hop not techno/DnB
Festalgia / Frontstage “lineups”	Some 2027 pages are AI predictions (e.g. Awakenings 2027 on Festalgia) — never ingest
BookMyShow as source of truth	Ticketing aggregator; scrape ecosystem; no timetable API
RA unofficial APIs	Scrapers

10	Liquicity 2027 or Hospitality Beach	Pure DnB, 3–5 stages	Summer; don't start both complete

Sunburn / Echoes / Lolla India / Tomorrowland Thailand / Wonderfruit: do **not** force fake end times. Stay @@CODE102@@.

808 Bangkok: if they publish a 2-stage PDF/HTML before 2 Oct 2026, it can jump the Clash queue ahead of ADE (sooner, simpler graph). Do not invent times from Housem.nl-style blogs.

9. Which stay @@CODE103@@ initially

- All 2027 outdoor fests **until** official timetable PDF/HTML
- Sunburn 2026
- Echoes of Earth 2026
- Lollapalooza India 2027
- Let It Roll Summer (too many sets for first pass)
- Dekmantel, Hideout, Sónar, Creamfields
- Boom 2027
- Tomorrowland Thailand, EDC Thailand, DWP, Wonderfruit (until official set times)
- Gaia Beats 2027, Day Zero Bali 2027, S2O 2027

- Labyrinth 2026, Snow Machine 2027, GMO SONIC 2027, Ultra Japan 2026 (if still in window)

Identity only (no fake artists): Mysteryland 2027, Junction 2 2027, Magnetic Fields 2027, Draaimolen 2027, Day Zero Bali 2027, S2O 2027, Rainbow Disco Club 2027, rural 2027.

11. Operating notes for Om

1. **Today you cannot fill 30 clash-ready grids.** Anyone who says otherwise is using aggregators.
 2. **Create festival shells this month** for TIER A with dates + timezone + official URL.
 3. **Ingest artists** only from official posters (Awakenings ADE, **EDC Thailand lineup page**, DWP homepage wave, 808 phase 2, Sunburn headliners, Echoes 2026-only, Tomorrowland **press** list).
 4. **Calendar reminders:** 808 Bangkok ~late Sep 2026 timetable watch; Let It Roll Winter timetable ~8 Jan 2027; Awakenings/DGTL mid-October 2026.
 5. **Email** Let It Roll, Liquicity, Soenda, Hospitality, Time Warp for CSV/ICS — those orgs are small enough to answer. 808 Bangkok is small enough to try the same.
 6. **Never** copy Festalgia “projected” 2027 lineups.
 7. **SEA timezone:** Bangkok/Jakarta are @@CODE147@@; **Bali is @@CODE148@@ (@@CODE149@@)** — do not reuse @@CODE150@@ for Potato Head.
 8. **Japan timezone:** everything here is @@CODE151@@. Labyrinth week-of timetable watch: ~3–10 Oct 2026.

12. One-line answer

Build V1 around the Dutch/Belgian/Czech/Tisno official-site circuit, then Thailand/Indonesia Fit events, then a small Japan set (Labyrinth Oct 2026, Snow Machine Mar 2027, optional Ultra this weekend), plus three Indian Fit-only events. Use October ADE week and January Let It Roll Winter as the first real Clash demos. 808 Bangkok is the only SEA Clash candidate. Labyrinth has a documented week-of timetable habit but may still be one floor. Do not chase Tomorrowland (Belgium or Thailand) for Clash, full ADE, or padded SA/SEA/JP lists.

13. Southeast Asia research notes (13 Sep 2026)

Countries checked: Thailand, Indonesia, Singapore, Malaysia, Philippines, Vietnam, Cambodia (plus Laos/Myanmar/Brunei — no catalog-grade fests found).

What is actually good

- Thailand has a **real 2026 electronic festival season** (Oct 808 → Dec Wonderfruit / Tomorrowland / EDC), which India does not match for official stage+artist HTML.
- Indonesia has **DWP** (mainstage EDM with usable techno/DnB names) and a **Dekmantel one-dayer** that is closer to our Europe taste than Sunburn.
- Insomniac’s EDC Thailand site is the SEA equivalent of a Dutch organizer site: named stages, FAQ on set times, long official artist list.

What looks big and is still bad data

- Tomorrowland Thailand is a **Fit goldmine and a Clash trap** (same as Belgium, smaller site, still 6–7 stages).
- S2O aggregator “timetables” (e.g. Housem.nl for Apr 2026) are **not** @@CODE152@@.

- DWP 2026 is **not in Bali** this year (Jakarta JIEXPO). Music Festival Wizard still saying Bali is stale.
- Wonderfruit’s 24-hour claim is real per FAQ; that does **not** mean a typed clash grid exists today.

Calendar collisions (product, not same site)

- **11–13 Dec 2026:** Tomorrowland Thailand **and** DWP Jakarta.
- **3–7 Dec 2026:** Wonderfruit, then EDC Phuket **18–20 Dec.**
- **2–3 Oct 2026:** 808 Bangkok, overlapping Europe’s Unsound / ADE-adjacent autumn.

Rejected / deferred SEA

Name	Reason
S2O 2026	Already ran 11–13 Apr 2026
S2O 2027	No official dates
Day Zero Bali 2026	Already ran 17 Apr 2026 (week 14–19)
Day Zero Bali 2027	“Returns 2027” only
Airtime Asia Da Nang	Aug 2026 already over; 2027 unconfirmed
ZoukOut Singapore	Last confirmed edition found: Dec 2023
Ultra Singapore / Philippines	2015–16 history; no 2026/27 SEA Ultra catalog
We The Fest	Indie/multi-genre; not D&B/house/techno-first
Full Moon / Jungle Experience / Circoloco Phuket weeks	Club/party series
Waterbomb Manila	K-pop water fest, not our genres

Manual curation only. No scraping of Ticketmelon, Eventpop, Megatix, or Insomniac beyond using those pages as **human** sources of truth.

14. Japan research notes (13 Sep 2026)

Short answer: Japan has **good stuff**, especially boutique house/techno. It does **not** currently have a dense dated 2026/27 catalog like the Netherlands or even Thailand.

What is actually good

- **Labyrinth** (Mindgames) is the closest JP analogue to Soenda/Draaimolen: English official site, camping, music windows, promised week-of timetable. Genre fit is high. Clash fit is **low** if it stays one Funktion-One floor.
- **Rainbow Disco Club** (Higashi-Izu) and **rural** (Fukushima nowhere CAMP) are historically the two outdoor JP events we’d want for Fit + later Clash. Both **2026 editions are already over; 2027 dates are not on the official sites.**
- **Snow Machine Hakuba 2027** is the rare JP 2027 poster with **Wilkinson / Kanine** (DnB) plus house/techno. Maintainability is ski-holiday HARD.
- **Ultra Japan 2026** is the only JP event with **named stages + an official running-order image right now.** It is also **this weekend** (19–20 Sep) and EDM-first. Resistance (Sara Landry, Lilly Palmer, Ken Ishii) is the only tent that matches our brief tightly.

What looks big and is still the wrong object

- Fuji Rock, Summer Sonic, Rising Sun, Asagiri Jam: Japanese festival culture, not an electronic catalog.
- GMO SONIC: arena EDM; dates yes, artists no.
- Tokyo DnB (WOMB 06S, ZEROTOKYO, Rampage Roadshow): real scene, **club nights**. Rampage Tokyo Vol.2 was 30 May 2026.

Compared with other regions

Region	Genre taste	Official 2026/27 pages	Clash this window
Netherlands / CZ / BE	Best	Best	Best
Thailand 2026	Mixed EDM + some techno/DnB	Strong (EDC, 808, TML)	808 maybe
Japan	Best boutique techno/house in Asia	Thin until RDC/rural 2027 drop	Ultra PNG this weekend; Labyrinth maybe 1 floor
India	Weak	Weak	No

Add Japan shells. Do not rebuild V1 around Tokyo.
